Greater Philadelphia Region: 2024 Grantmaking Guidelines

Boeing's Focus in the Greater Philadelphia Region

Boeing Philadelphia has developed a site-specific plan tailored to the particular needs of the Greater Philadelphia region, focusing our grants on the strategies in this document. We place emphasis on sustainable, scalable and replicable programs beyond the period of investment. We emphasize programs that are catalysts for positive and systemic change and have a broad base of community support, focusing our grants within the pillars Our Future: Tomorrow's Innovators, Our Heroes: Veterans & Families, and Our Homes: Dynamic Communities.

Goal:

Create education and career pathways to strengthen and diversify the pipeline of skilled workers entering today's dynamic labor market. Place special emphasis on students of color and others from communities typically underrepresented in science, technology, engineering and mathematics (STEM) fields. Advance the 21st-century skills necessary to persist in and complete rigorous academic programs and gain family-wage employment. We support policy changes to practices that disproportionately affect students underrepresented in STEM fields.

Concentration:

- **Primary and Middle School:** Generate interest and sustained participation in STEM disciplines through hands-on, experiential learning and 21st-century skills development (including STEAM or integrated arts education).
- **High School:** Graduate more students who are ready to enter STEM-related or other high-demand careers and STEM-focused postsecondary education through high-quality, career-connected learning programs.
- **Workforce Preparation:** Reduce economic disparities by preparing underskilled adults, young adults and low-income workers for living-wage jobs in high-demand sectors.

Boeing makes investments in organizations in the Greater Philadelphia region, with a special focus on Delaware County, Pennsylvania.
